

June 30, 2011

Dear Parent/Guardian,

On behalf of our entire faculty and staff, I wish you and your family a healthy and relaxing summer!

In an effort to sharpen our students' reading skills and to foster a love of reading, we are for the first time assigning a summer reading project for our students. While we hope that our students read many books over the summer, we are assigning two books to read before the first day of school. One book is a required title. The second book may be any book selected from a suggested list. These two lists may be found on our school website. In the first days of school in September, our teachers will be following up on the summer assignment, and this work will be graded.

Again, I wish you a wonderful summer!

Very truly yours,

Mr. William Scott Ryan, Principal
