# CURRICULAR UPDATES

- Revisions of Existing Curriculum
  - Moving standards from 5th grade social studies to 3rd and 4th grades
  - Addition of Computer Science Design Thinking Standards, Career Readiness, Key Skills and Life Literacies Standards and Legislative Mandates
- Media Unit (Photography) Added to 6th Grade Art Curriculum
- Completion of STEAM Project Units
- Addition of Dance into Music Curriculum
- Acceptance to the Early Learning Network Improvement Community (Math Cohort)
- Orcam Pilot Program

# District Goal Updates

**Enhance the partnership between home and school through deliberate communication structures and increased opportunities for family involvement.**

- Google Calendar added to home page.
- Refresh of district website in process.
- Remind platform purchased.
- Administrative team received PD on Remind.
- Expectations shared with staff at opening faculty meeting.

**Implement activities across the curriculum that foster creativity resulting in increased student engagement.**

- Scheduled in-person PD with IDE on 1/15.
- Certificated staff were provided directions for accessing self-paced PD modules that include a focus on choice and voice and designing for different types of learners.

# District Goal Updates

**Meet the needs of all learners via a differentiated approach to learning as evidenced by the number of students who meet or exceed expectations on the New Jersey Student Learning Assessment (NJSLA) with a target goal of 80% Meeting or Exceeding in Mathematics and 85% Meeting or Exceeding in English-Language Arts.**

- Based on analysis of 2022-2023 data (i.e., Linkit!, NJSLA, DIBELS, Reading Levels), submitted grant proposal for Title I funding focused on literary comprehension and foundational literacy skills for students entering 4th grade.
- Implementation of DreamBox Launch Pad as a diagnostic assessment.
- Scheduled PD with Denis Sheeran on using data to inform small group instruction in mathematics.
- Scheduled PD on meeting the needs of multilingual learners in the classroom.
- Application and acceptance into the New Jersey Early Learning Networked Improvement Community focused on early mathematics using the method of improvement science (a problem-solving approach focused on continuous inquiry and learning).

A watercolor illustration of a bright sun with rays and pink clouds. The sun is a large, textured orange circle in the center, surrounded by numerous shorter, radiating orange lines of varying lengths. The background is a light, textured beige. At the bottom left and right corners, there are soft, watercolor-style pink clouds.

And it has only  
just begun!
