

BOARD OF EDUCATION MEETINGS

Board of education meetings shall be a primary means of sharing information with community members and inviting their comments and suggestions. Regular and special meetings of the board of education are open to the public and representatives of the media, except when, by resolution at the public meeting, the board excludes the public from those parts of a meeting which deal with matters held confidential in accordance with law.

The board welcomes participation of interested organizations and individuals and will schedule time as appropriate for the public to speak. The length of time scheduled for public discussion shall be stated in the agenda, together with any time limit proposed for individual speakers.

The board will not permit unnecessary or undesirable identification of district pupils at public or board of education meetings, particularly when the pupil is subject to disciplinary action, or has been identified as having a disability. A special confidential file shall be kept of the names of pupils with disabilities on whose behalf the board must take public action. An unidentifiable coding shall be used when referring to the pupil.

Comments and questions at the end of regular and special meetings may deal with any topic related to the board's conduct of the school. Advance announcement of all regular, scheduled special, and specially called meetings of the board is made through newspapers and other appropriate media outlets.

The board shall include a discussion of the School Ethics Act and the Code of Ethics for School Board members annually at a regularly scheduled public meeting.

Non-categorized schools shall discuss the school performance report (SPR) publicly. The school performance report is an annual New Jersey Department of Education report released for every school in New Jersey that sets specific school- and subgroup-performance targets for both language arts and mathematics, and detail the school's annual progress toward meeting the targets. The report includes a range of data, including progress toward closing achievement gaps, comparison to peer schools with similar demographics, growth over time as measured through student growth percentiles (SGP) on State tests, and additional college- and career-readiness data points. The reports support the school district and school's engagement in performance management by setting performance goals, identifying strengths and weaknesses, and developing local plans to focus on low-performance areas.

In addition the district shall report on progress made in meeting the adequate yearly targets established for closing the achievement gap as set by the Department of Education.
