

ARTICULATION

In order to optimize student achievement of the New Jersey Student Learning Standards, the Oradell Board of Education shall be responsible for the delivery of educational programs at the elementary level using a coherent sequence of activities to prepare all students for middle and high school study upon their graduation from the 6th grade.

The chief school administrator shall develop programs whereby teachers cooperate to achieve smooth transitions from the elementary level to the River Dell Regional School District; whereby students in the district's schools receive instruction in the same subjects at the same levels as students in other districts who will be attending the same middle and high schools; and whereby the transition for district students from our elementary schools to the middle and high schools is accomplished without unnecessary difficulty for any student.

Further, the chief school administrator will make every effort to develop a similar relationship with nursery schools from which district kindergarten students come.

Adopted: December 9, 2009
NJSBA Review/Update: January 2019
Readopted: December 11, 2019
