

Policy

EXTRACURRICULAR ACTIVITIES

The Oradell Board of Education believes that the educational goals and objectives of the district are best achieved by a diversity of learning experiences, some of which are more appropriately conducted outside the regular classroom program.

The purpose of extracurricular activities shall be:

- A. To develop useful new capabilities in students that can lead to extension of career opportunities;
- B. To develop student initiative and provide for the exercise of responsibility;
- C. To develop leadership capabilities and good organizational skills;
- D. To aid students in the social skills;
- E. To enable students to explore a wider range of individual interests than might be available in the regular program.

For purposes of this policy, "extracurricular activities" shall be those activities that are sponsored or approved by the board but are not offered for credit toward graduation. Such activities shall generally be conducted outside the regular school day, available to students who voluntarily elect to participate, marked by student participation in the processes of initiation, planning, organizing and execution and shall ordinarily include band, clubs, dramatic or musical presentations, and intramural and interscholastic sports.

Equal access to school facilities shall be granted to all activities that meet this definition.

The chief school administrator shall prepare procedures to implement an extracurricular program which shall:

- A. Assess the needs and interests of the students of this district;
- B. Ensure the provision of competent guidance and supervision by staff;
- C. Guard against the exploitation of students;
- D. Provide for a variety of experiences and a diversity of organizational models;
- E. Provide for the continuing evaluation of the extracurricular program and staff;
- F. Ensure that all extracurricular activities are open to all eligible students and that all students are fully informed of the opportunities open to them.

The guidance goal for each student shall be a balanced program of appropriate academic studies and activities to be determined by the school, the parents/guardians and the student. Guidance is necessary to encourage nonparticipants, and to prevent the overenthusiastic from emphasizing activities at the cost of their academic performance.

Only persons in the employ of a board of education shall be permitted to organize district students during school time or during any recess in the school day for purposes of instruction or coaching or for conducting games, events, or contests in physical education or athletics.

EXTRACURRICULAR ACTIVITIES (continued)

No activity shall be considered to be under the sponsorship of this board unless it has been approved by the board on recommendation of the chief school administrator. Fundraising activities of extracurricular groups must be approved by the board.

All students in good disciplinary and academic standing shall have equal access to all extracurricular activities regardless of race, creed, color, national origin, ancestry, age, marital status, affectional or sexual orientation, gender, gender identity and expression, religion, disability, immigration status, English proficiency, housing status or socioeconomic status. The district shall ensure equity in educational programs including extracurricular activities and provide opportunities for students to interact positively with others on a nondiscriminatory basis.

Good Disciplinary Standing

Good disciplinary standing shall mean that a pupil is not eligible to participate in an extracurricular activity if he/she is reported for an infraction of the rules for pupil conduct. The principal shall appoint an impartial staff committee to consider whether the pupil shall be removed from any or all extracurricular activities.

Attendance

The district's attendance policy shall also apply. Students shall not participate in extra-curricular activities if they are absent from school the day of the activity. Students may not have more than 20 unexcused absences in a school year in order to be eligible to participate in extracurricular activities, or a prorated number of unexcused absences based on the total number of days available prior to the beginning of the activity.

Parental Consent

No student shall participate in a school-sponsored physical activity outside the regular physical education curriculum without a signed consent form from a parent/guardian naming the activity and acknowledging that the activity may be hazardous.

Implementation

The chief school administrator may direct development of regulations to ensure equitable implementation of this policy. Particular care shall be taken to ensure that all extra-curricular programs and their operation comply with district equity requirements. Participation in academically related coaching or tutoring groups may be exempt from the eligibility requirement at the chief school administrator's discretion.
